- **Please DO NOT send your slides as a PDF**

Please email to kathryn.ipce@ubc.ca

If you do not submit a summary, or your powerpoint slides for the syllabus, your original abstract will be used.

PLEASE NOTE THAT WE MAY RE-FORMAT OR RE-ARRANGE YOUR MATERIALS FOR REASONS OF SYLLABUS DESIGN AND SPACE CONSIDERATIONS

1. Summaries should include material that will be highlighted or emphasized in the lecture.
2. The first page should contain the learning objectives for the session and references should be included at the end of the summary. All presenters must disclose conflicts of interest during the presentation verbally and in the PowerPoint presentation.
3. If visuals to be shown contain factual material that cannot easily be written down during the presentation, a photocopy of the material should be included in the summary. Please try to obtain the best possible, as it will have to withstand reproduction for handouts.
4. It is essential that this material be received on the date specified in order to have it included in the course syllabus. Although every effort will be made to place summaries received past the due date in the course syllabus, often this will not be possible.
5. If submitting a printed copy of the summary it must be first-generation, typewritten and camera-ready.
6. If summaries include photo or text material from texts or journals please provide us with the original text or journal pages, or try to obtain the best possible photocopy as it will have to withstand duplication for handouts. **If photographs or previously published articles are to be included, you must obtain proper licensing/copyright approval for use before forwarding these materials to us for duplication.**

PLEASE REMEMBER TO USE ONLY GENERIC RATHER THAN TRADE NAMES OF MEDICATIONS AND/OR DEVICES INCLUDED WITHIN ALL PRESENTATIONS OR WRITTEN MATERIALS.

The conference syllabus will be distributed to participants as a digital file (PDF) on a USB key.
